WARRANTY

Global warrants that the Products will be free from defects in materials or workmanship. The warranty is valid on the condition that the installation and the system to which the Product is connected are performed by (1) qualified/eligible personnel, (2) to top workmanship standards, (3) in compliance with the regulations and requirements of the sector in force, (4) in full compliance with the Instructions for Installation provided and included in the Product's packaging. Failure to comply with all standards (1) (2) (3) (4) during installation of the Products will void the warranty.

Global warrants the Products for a period of 12 (twelve) months from the date of delivery. Any defects found must be reported in writing within 8 (eight) days from their detection, in any case within the warranty duration period, indicating the faulty part or component of the Product, providing photographic documentation and a description of the failure.

Global's obligation under this warranty shall be limited to the replacement of the Products and/or individual components that are found to be faulty, including the related freight costs free of charge to the retailer. Any further costs and compensation for damages shall be excluded. The warranty shall be governed by the additional terms and conditions set out in the VALVE WARRANTY section on the globalradiatori.it website.
